

LIST OF FINANCEABLE PRODUCTS

Applicable to Pre-shipment, Short Term Pre-shipment, Special Pre-shipment and Post-shipment Programs

GROUP I

NCM	DESCRIPTION
73	Cast iron, iron and steel products
83	Diverse products with common metals
84	Nuclear reactors, boilers, machines, mechanical devices and instruments, and their parts
8501 to 8503	Electric motors and generators, rotary converters, and their recognizable parts.
8504	Electric transformers, static electric converters, reactance and self-inducted coils.
8505	Electromagnets; permanent magnets and artifacts that will become permanent magnets; plates, mandrels, and similar magnetic or electromagnetic fixture items; couplings, clutches, electromagnetic speed and brake variators; electromagnetic elevation heads.
8514	Industrial and laboratory electric ovens; other industrial apparatuses destined to thermal treatment of materials through induction or through dielectric losses.
8515	Machines and apparatuses to weld electric components through laser or other beams of light, electrons, photons, through ultra-sound, magnetic impulses, or plasma jets; electric machines and apparatuses for hot projection of metals or ceramics.
8517.30 and 8517.50	Switch apparatuses for telephony and telegraphy and other apparatuses for telecommunication through carrier or digital transmission.
8525 *	Transmission devices for radiotelephony, radiotelegraphy, radiobroadcast, or television; video cameras; digital photographic cameras, except 8525.40
8526 and 8530	Apparatuses for radio detection, radio probing, radio navigation, and radio telecontrol. Electric apparatuses for signaling (except of message transmission), security, control, and commando.
8532.10.00	Fixed electric condensers conceived for electric lines of 50/60 Hz and able to absorb reactive power equal to or above 0.5KV Ar.
8533.10.00	Fixed resistors made of carbon, agglomerated or layers.
8535	Apparatuses for interruption, sectioning, protection, derivation, junction, or connection of electric circuits for tension above 1,000 VOLTS.
8546	Insulators of any matter for electric use.
86	Vehicles and materials for railroads or similar uses, and their parts; mechanical equipment (including electro-mechanics) for signs in communication lines
8701	Tractors (except cars-tractors in category 8709)
8702	Automotive vehicles for the transport of 10 or more persons, including the driver

NCM	DESCRIPTION
8704 *	Automotive vehicles for the transport of merchandise; except 8704.21 and 8704.31 (see GROUP III)
8705*	Automotive vehicles for special uses (for example: vehicle aid, tow trucks, fire trucks, concrete trucks, sweeping vehicles, spreading vehicles, office-vehicles, radiological vehicles), except those specifically conceived for the transport of persons or goods, except 8705.90.90
8706.00.10	Chassis with engine for the automotive vehicles in category 8702
8707.90.90	Car bodies for automotive vehicles in categories 8701 through 8705, including the cabins, except for vehicles in category 8703 and vehicles in subcategories 8701.10, 8701.30, 8701.90 or 8704.10
8709*	Automotive vehicles without lifting mechanisms, of the kind used in factories, warehouses, harbors or airports, for the transport of merchandise over short distances; tractor-cars of the type used in railroad stations; their parts, except 8709.90.00 (see GROUP II)
8716*	Tows and semi-tows, for any vehicles; other self-propulsion vehicles; their parts, except 8716.80.00 and 8716.90.90 (see GROUP II)
88	Aircraft and special devices, and their parts
89	Vessels and floating structures
90	Optical, photographic and cinematographic, measurement, control or precision instruments and devices; medical-surgical instruments and devices; their parts and accessories

Obs.: The classification of merchandise in the NCM - Mercosul Common Nomenclature - may be verified in the page of the Ministry of Development, Industry and Commerce in the internet (<http://www.mdic.gov.br>)

Obs.: The codes of the NCM that are signaled with an asterisk (*) in the "NCM" column in this list present exceptions of support in some categories, detailed in the "Description" column above.

GROUP II

NCM	DESCRIPTION
02	Meats and meat offal, edibles
03*	Fish and crustaceans, mollusks and other aquatic invertebrates, except 0301
04	Milk and dairy products; bird eggs; natural honey; edible products of animal origin, not specified or included in other chapters
05	Other products of animal origin, not specified or included in other chapters
06	Live plants and floriculture products
07	Horticulture products, root plants and tubercles, edibles
08*	Fruits; citric and melon skins, except 0814
09*	Coffee, tea, mate and spices, except 0901.1 (see GROUP III)
1302.19	Vegetable juices and extracts
1507.90.1	Refined soy sauce
1507.90.90	Other soy sauces
1509	Olive oil
1512.19.11	Refined sunflower oil
1512.29.10	Refined cotton oil
1515.29.10	Refined corn oil
1517	Margarines; fat or animal or vegetable oil mixtures or food preparations
1520	Glycerol
1521	Vegetable waxes
16	Meat, fish or crustacean, mollusk or other aquatic invertebrates preparations
1702.90.00	Other sugars, including inverted sugar and other sugars and sugar syrups containing in weight, in dry state, 50% fructose.
1703	Molasses resulting from the extraction or refining of sugar
1704	Confectionary products, without cocoa (including white chocolate)
18*	Cocoa and its preparations, except 1801 and 1802
19	Preparations based on cereals, flours, starches, facultae or milk; pastry products
20*	Horticulture, fruit or plant part products, except 2001, 2002.10, 2004, 2005 and 2009.1
21*	Diverse food preparations, except 2102
22	Beverages, alcoholic liquids and vinegars
2309	Preparations used in animal rations
2402.10	Cigars and cigarettes containing tobacco
2514	Slate, even polished or simply cut by saw or other methods into blocks or plates in a square or rectangular format

Obs.: The classification of merchandise in the NCM - Mercosul Common Nomenclature - may be verified in the page of the Ministry of Development, Industry and Commerce in the internet (<http://www.mdic.gov.br>) 2

Obs.: The codes of the NCM that are signaled with an asterisk (*) in the "NCM" column in this list present expectations of support in some categories, detailed in the "Description" column above.

NCM	DESCRIPTION
2515.12 and 2515.20	Marbles, travertines, Belgian granite and other calcareous rocks for stonecutting or construction, cut with saws or other means into blocks or plates in a square or rectangular format
2516.12 and 2516.22	Granite and sandstone simply cut by saw or other means into blocks or plates in a square or rectangular format
2519.90	Fused magnesia, calcinated magnesia, other magnesium oxides
2520.20	Plaster, even full-bodied or with small quantities or added accelerators or retardants
2815 to 2825	Inorganic chemical products; inorganic or organic composts of precious metals, radioactive elements, rare-earth metals or isotopes
2827	Chlorides, oxychlorides and hydrochlorides; bromides and oxybromides; iodides and oxyiodides
2829	Chlorides and perchlorates; bromides and perbromides; iodides and periodides
2917.32.00	Diethyl orthophthalate
2922.41.90	Other esters and lysine salts
2922.42.20	Sodium salts from glutamic acid (monosodic glutamate)
2923.20.00	Glyphosate and its monoisopropanolamine salt
2931.00.32	Lecithins and other phosphoaminolipids
2931.00.37	Phosphonomethyliminodiacetic acid; trimethylphosphate acid
2938	Heterosides, naturals or reproduced by synthesis, their salts, ethers, esters and other derivatives
2941	Antibiotics
30	Pharmaceutical products
32	Tanning and dyeing agents; tannins and their derivatives, pigments and other coloring materials; paints and varnishes; mastics; writing ink
33	Essential oils and resinoids; perfume products or hairdresser and cosmetic preparations
34	Soaps, surface organic agents, cleaning preparations, lubricating preparations, artificial waxes, conservation and cleaning products, candles and similar items, molding dough or pastes, "waxes" for dentists and plaster based compositions for dentists
35	Albuminoidal materials; products based on modified starches or faculae; glues; enzymes
37	Photography and cinematography products
38*	Diverse chemical industry products, except 3801, 3803, 3804 and 3807
39	Plastics and their products
40	Rubbers and their products
4104.11.24	Other bovine leather or skins after tanning

Obs.: The classificaion of merchandize in the NCM - Mercosul Common Nomenclature - may be verified in the page of the Ministry of Development, Industry and Commerce in the internet (<http://www.mdic.gov.br>) 3

Obs.: The codes of the NCM that are signaled with an asterix (*) in the "NCM" column in this list present expections of support in some categories, detailed in the "Description" column above.

NCM	DESCRIPTION
4104.4	Leathers and skins in the dry state ("crust") of bovines (including buffalos) or equines, depilated, even divided, but not prepared in any other form
4105.30	Leathers and skins in the dry state ("crust") of ovines, depilated, even divided, but not prepared in any other form
4106.22	Leathers and skins in the dry state ("crust") of caprines, depilated, even divided, but not prepared in any other form
4106.32	Leathers and skins in the dry state ("crust") of swines, depilated, even divided, but not prepared in any other form
4107	Leathers prepared after tanning or after drying and parchment leathers and skins, of bovines (including buffalos) or equines, depilated, even divided
4112	Leathers prepared after tanning or after drying and parchment leathers and skins, of ovines, depilated, even divided
4113.10	Leathers prepared after tanning or after drying and parchment leathers and skins, of caprines, depilated, even divided
4113.20	Leathers prepared after tanning or after drying and parchment leathers and skins, of swines, depilated, even divided
4114	Suede leathers and skins (including combines suede); varnished or coated leathers and skins, metallized leathers and skins
4115	Reconstituted leather, based on leather or leather fibers, in slabs, leafs or strips, even rolled
42	Leather products; belt or saddle maker items; travel items, bags and similar artifacts; intestine products
44*	Wood, vegetal coal and wood products, except 4401 to 4406, 4407.2, 4407.9, 4408.3, 4408.90 and 4409.20
45	Bark and its products
46	Rope and basket products
4707	Recycled paper or cardboard
48	Paper and cardboard; cellulose paste, paper or cardboard products
49	Books, newspapers, engravings and other printing industry products; manuscript or dactylographic manuscripts, plans and blueprints
50*	Silk, except 5001 to 5003
51*	Wool and fine or rough fur; mane threads and textiles, except 5101 to 5105
52*	Cotton, except 5201 to 5203
53*	Other vegetal textile fibers; paper threads and paper thread textiles, except 5301 to 5305
54	Synthetic or artificial filaments
55	Synthetic or artificial fibers, discontinuing
56	Pastes ("ointments"), felts and non-wovens; special threads; twine, cords and cables; rope articles

Obs.: The classification of merchandise in the NCM - Mercosul Common Nomenclature - may be verified in the page of the Ministry of Development, Industry and Commerce in the internet (<http://www.mdic.gov.br>)

NCM	DESCRIPTION
57	Carpets and other covers for pavements, of textile materials
58	Special textiles; puffed textiles; tapestries; passementeries; embroideries
59	Impregnated, coated, covered or laminated textiles; items for technical uses of textile materials
60	Mesh textiles
61	Clothing and accessories, of mesh
62	Clothing and accessories, except mesh
63	Other confectioned textile items; assortments; textile material items, footwear, hats and items of similar uses, used; rags
64	Footwear, leggings and similar items, and their parts
65	Hats and items for similar uses, and their parts
66	Umbrellas, shades, sunshades, canes, seat canes, whips, and their parts
67*	Feathers and prepared fluff, and their products; artificial flowers; hair products, except 6701
68*	Stone, plaster, cement, mica or similar material products, except 6802.9
69	Ceramic products
70*	Glass and its products, except 7001
71*	Natural or cultivated pearls, precious or semi-precious stones and similar, precious metals, leafed or plated precious metals, and their products, except 7101 to 7112.
72*	Cast iron, iron and steel, except 7201 to 7207 and 7224
74*	Copper and its products, except 7401 to 7406.
75*	Nickel and its products, except 7501 to 7504.
76*	Aluminum and its products, except 7601 to 7603.
78*	Lead and its products, except 7801 and 7802.
79*	Zinc and its products, except 7901 to 7903.
80*	Tin and its products, except 8001 and 8002.
8101.96	Tungsten (wolframium) in wires
8102.96	Molybdenum in wires
8105.90	Other intermediate products of cobalt metallurgy
8111.00.20	Manganese in slabs, leaves, strips, wires, poles, tablets and plaques
8113.00.10	Ceramics ("cermets") in slabs, leaves, strips, wires, poles, tablets and plaques
82	Tools, cutting and cutlery items, and their parts, of common metals
8506 and 8510	Cells and batteries of cells, electric; electric accumulators and their separators; electromechanical apparatuses of incorporated electrical engine; apparatuses or

NCM	DESCRIPTION
	machines for shaving, cutting hair, and de-hair.
8511	Electric apparatuses and devices of ignition or starting-up for ignition motors through blow-out or compression; generators and contactors-breakers used with these motors.
8512 and 8513	Electrical apparatuses for lighting or signaling (except of position 8539); portable electrical lamps operated through self-power; windshield wipers, electrical ice wipers and defoggers used in motorcycles and automobiles.
8516	Water electric heaters; electrical apparatuses for heating, electro-thermal apparatuses for hair array, to dry hands and others; electric irons for clothes; heat resistors (except position 8545).
8517 *	Electrical apparatuses for telephony or telegraphy, through wire, and telecommunication apparatuses through carrier or digital transmission; videophones, except 8517.30 and 8517.50
8518 to 8524	Microphones and their supports; loud-speakers; headsets; audio-frequency electrical amplifiers; sound amplification electrical apparatuses; record-players, tape-players, electrophones; recorders of magnetic supports; videophone apparatuses for recording or reproduction; parts and accessories destined to these apparatuses. Records, tape, and other supports for the recording of sound or to similar recordings, whether recorded or not (except products of section 37).
8525.40	Video cameras with steady image and other video cameras; digital photograph cameras.
8527 to 8529	Receiving apparatuses for radiotelephony, radiotelegraphy, or radiobroadcast and television; monitors and video projectors and recognizable parts of the apparatuses of positions 8525 to 8528
8531	Electrical apparatuses of acoustic and visual signaling, except those in positions 8512 or 8530
8532	Electric, fixed, variable or adjustable condensers, except 8532.10.00
8533	Electric resistors, except for hearing and 8533.10.00
8534.00.00	Printed circuits.
8536	Apparatuses for interruption, sectioning, protection, derivation, joint, or connection of electrical circuits to tension not above 1,000 VOLTS.
8538	Recognizable parts destined to apparatuses of positions 8535, 8536, or 8537.
8539 to 8542	Lamps and electrical incandescent or discharge tubes; arch lamps; lamps, tubes, and valves, electronic, of hot cathode, cold cathode, or photo cathode; diodes, transistors, similar semiconductor circuits; semiconductor photosensitive devices; light emission diodes; piezoelectric crystals assembled; integrated circuits and electronic microassembly.
8543 to 8547	Machines and electrical apparatuses with specific function; wires, cables, and other conductors insulated for electric use; optical fiber cables; coal electrodes, coal brushes, coals for lamps or cells and other articles of graphite or coal destined to electric use. installations, except of position 8546; Insulating parts of insulating matters for electrical machines, apparatuses, and insulation tubes and

NCM	DESCRIPTION
	respective connection parts, of common metals, insulated internally
8548	Cells, batteries of cells, and electric accumulators not appropriate for use and their respective wastes and residues; electrical parts of machines and apparatuses.
8708	Parts and accessories of automotive vehicles in categories 8701 to 8705
8709.90.00	Parts of automotive vehicles without lifting mechanisms, of the types used in factories, warehouses, harbors or airports, for the transport of merchandise over short distances; tractor-cars of the kind used in railroad stations
8712	Bicycles and other cycles (including tricycles), without engines
8713	Wheelchairs and other vehicles for disabled persons, even with an engine or another propulsion mechanism
8714	Parts and accessories of vehicles in categories 8711 to 8713
8715	Carts and similar vehicles for the transport of children, and their parts
8716.80.00	Other vehicles that are not self-propelling
8716.90.90	Parts of tows and semi-tows, for any vehicles; other not self-propulsion vehicles, except the chassis of tows and semi-tows
91	Clockwork items and their parts
92	Musical instruments, parts and accessories
94	Furniture; medical-surgical furniture; mattresses, pillows and similar items; illumination devices that are not specified or included in other chapters; illuminated advertisements, posters or signboards and indicating signs, and similar items; prefabricated buildings
95	Toys, games, entertainment and sports items; their parts and accessories
96	Diverse products
9998.02.02	Onboard consumption items for aircrafts, except fuels and lubricants

GROUP III

The financing requests that contemplate one or more goods that are classified in the following NCM's are NOT qualified as Automatic Operations.

NCM	DESCRIPTION
0901.1	"Specialty" type green coffee (type 1 coffees, raw, non-decaffeinated, grain, Arabic COB 4, Bolter 16 and Above, Hard Beverage), with an export price 20% above the FOB Brazil price (daily reference price based on the New York Exchange Market, not considering the discount practiced for Brazilian coffee).
2936 and 2937	Pro-vitamins, vitamins and hormones
36	Gunpowder and explosives; pyrotechnical items; matches; pyrophoric alloys; flammable materials
8703	Passenger vehicles and other automotive vehicles conceived mainly for the transport of persons (except those of category 8702), including vehicles for multiple uses ("station wagons") and racing cars
8704.21	Automotive vehicles for the transport of merchandize, with a piston engine, with a compression ignition (diesel or semi-diesel), with a weight at maximum load that is not superior to 5 tons
8704.31	Automotive vehicles for the transport of merchandize, with a piston engine, with a spark ignition, with a weight at maximum load that is not superior to 5 tons
8705.90.90	Other automotive vehicles for special uses (for example: vehicle aid, tow trucks, fire trucks, concrete trucks, sweeping vehicles, spreading vehicles, office-vehicles, radiological vehicles), except those specifically conceived for the transport of persons or goods and trucks for the determination of physical parameters characteristic (logging) of oil wells
8706*	Chassis with engine or automotive vehicles in categories 8701 to 8705, except 8706.00.10
8707*	Car bodies for automotive vehicles in categories 8701 to 8705, including the cabins, except 8707.90.90
8710	Armored combat cars and vehicles, armed or not, and their parts
8711	Motorcycles (including scooters) and other cycles equipped with auxiliary motors, even with a lateral car; lateral cars
93	Weapons and munitions, their parts and accessories

Obs.: The classificaion of merchandize in the NCM - Mercosul Common Nomenclature - may be verified in the page of the Ministry of Development, Industry and Commerce in the internet (<http://www.mdic.gov.br>)
